

International Collaboration

The NGO has signed Memoranda of Understanding (MOUs) with the Grid Technology Research Center, National Institute of Advanced Industrial Science and Technology (Japan) and the Korea Institute of Science and Technology Information. The MOUs provide a framework for collaboration under the following areas:

- joint research projects;
- conferences, workshops, seminars and other activities, such as exchange of Grid researchers between partners and Singapore;
- joint multilateral projects with academia and industries; and
- bilateral annual review on the progress and development of Grid Computing within each institution.

The NGO is also a member of the following organizations:

- Asia Pacific Advanced Network (APAN);
- Asia Pacific Grid Policy Management Authority (APGrid PMA);
- Asia Pacific Network Information Centre (APNIC);
- Gelato Federation;
- HP Collaboration and Competency Network (HPCCN); and
- Pacific Rim Application & Grid Middleware Assembly (PRAGMA).
