

*Platform Computing Cloud Innovation Centre is supported by IDA to promote the adoption and use of Cloud technology by Enterprises, ISV, Start-Ups and Government organizations in Singapore.*

**Seminar Title:**

Understanding IAAS and how to cloud enable your IT infrastructure in 2 hours with Platform ISF and Citrix Xen

**Date/Time:**

28<sup>th</sup> August 2009 from 2.30pm – 4.30pm

**Location:**

Level 5, Seminar room 7  
Fusionopolis, Symbiosis Tower  
1 Fusionopolis Way  
Singapore 138632

**To register now, please send your name, title and company name to [jchow@platform.com](mailto:jchow@platform.com)**

Today's datacenter, with static compute resources is not structured to appropriately match supply with wildly fluctuating demand in a cost-effective and timely manner. What is required is a way to create a shared, **private cloud computing** infrastructure from physical and virtual resources to deliver application environments according to workload-aware and resource-aware policies.

Join us for a two hour technical session to discover how **Platform's ISF and Citrix solutions** can help transform your IT infrastructure to become more dynamic and cost effective while improving customer service levels.

This seminar is free to registered participants. Light refreshments will be provided.

**About Platform Computing**

Platform Computing is the leader in grid and cloud computing software that dynamically connects IT resources to workload demand according to business policies. Over 2,000 of the world's largest organizations rely on our solutions to improve IT productivity and reduce data center costs. Platform has strategic relationships with Cray, Dell, HP, IBM, Intel, Microsoft, Red Hat, and SAS. Building on 17 years of market leadership, Platform continues to help data centers be more efficient, responsive and dynamic. Visit [www.platform.com](http://www.platform.com).
